LookHear

PORTABLE AUDIOVISUAL INFORMATION DELIVERY SYSTEM

LookHear is a high-quality, audiovisual notification device, and is part of the GLOBALCOM® family of announcement control and enterprise-wide communication solutions. When combined with GLOBALCOM®, LookHear becomes a seamless extension of a mass communication and life-safety system, while also having the inherent capability of being used for way-finding and digital signage.

FEATURES

High Quality Audio and Video Together

LookHear, with a combination of high quality audio and video, provides a unique experience unlike any other visual signage or audio product in the market today.

Part of GLOBALCOM® Ecosystem

Through its integration with GCK, LookHear provides critical audio and video information to direct and inform with precision.

ADA-Compliant Visual Paging

Audible and visual messaging for guest information includes ADA compliant visual paging as a GCK life-safety endpoint.

High Quality Audio

LookHear boasts an amplified CBT line array for high quality audio with uniform coverage by AtlasIED, the leader in mass notification systems for airports and other transportation facilities.

Engaging Synect Content

LookHear includes innovative curated video content exclusively from Synect, a transformational airport design services company.

Portable and Flexible

With locking casters and sturdy handles, LookHear is portable and flexible, making it ideal to place in temporary or permanent locations.

LOOKHEAR VISUAL MESSAGES

Please note that these are examples of the variety of visual message screens available in the LookHear visual messaging library.

EMERGENCY MESSAGES

Seamlessly integrated into the GLOBALCOM® ecosystem, LookHear visually and audibly offers intrusive messaging to communicate important life safety instructions to passengers, guests, and staff.

ALL CLEAR MESSAGES

Each emergency visual message screen has a corresponding “all clear” message to let individuals know that the threat has passed and normal facility operations have resumed.

GENERAL MESSAGES

LookHear can also be used to effectively instruct, remind, or update passengers and guests through a variety of general communications that are frequently utilized at airports and transportation facilities.

CUSTOM VISUAL MESSAGING

Each LookHear includes a single curated visual message welcome screen customized with the airport or transportation facility's name and logo.
